

# European Voluntary Service Mid-term Training

## Mid-term Training Learning outcomes

By the end of the mid-term evaluation seminar you will:

- Be able to reflect on the experiences you have made so far in your European Voluntary Service
- Have the chance to consider your learning achievements & general progression made as a volunteer through looking at YOUTHPASS competencies
- Know what further opportunities you may have through Youth in Action how to access them
- Meet again with other volunteers who are undertaking EVS projects
- Have the opportunity to evaluate your own progress as a volunteer through EVS, what it meant to you, whether you achieved the learning objectives you set out to and what it could mean for you in the future
- Have the opportunity to evaluate all aspects of your project partners (your sending organisation, hosting organisation & if applicable your co-ordinating organisation)
- Considered what qualities, skills and knowledge you will brought to your project, and what you will leave with
- Evaluate the practical aspects of your time abroad so far – accommodation, food, health insurance, documents and the whole experience etc.
- Have discussed any worries, concerns or questions you have about the experience you are undertaking

# European Voluntary Service Mid-term Training
